

THE BEAST. REFINED.

TATA MOTORS | TATA

Safari
STORME *THE REAL SUV*

TOOTH, CLAW AND CHROME.

**THE MOST ENJOYABLE RIDE
IN THE MOST DIFFICULT TERRAINS.**

*The TATA Safari Storme is a beast at heart.
One that's meant to be feared and
respected. A creature of the wild it is, but
not without its majesty and awe. Hailing
from a bloodline of explorers, power and
refinement run deep in every Safari Storme.
Legend has it that it can be tamed by only
those who are truly brave at heart.*

Safari
STORME

OVERPOWER EVERYTHING

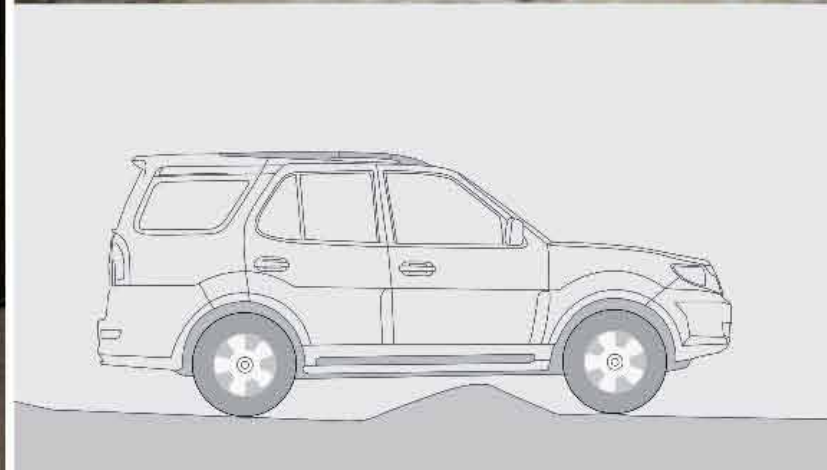

With a monstrous 2.2L VariCOR diesel engine at its heart, the Safari Storme fears nothing. Backed by the muscle to overpower any hurdle, this 16-valve engine churns out a staggering power of up to 140PS at 4000rpm, along with 320Nm of maximum torque at 1700rpm. Built on the highly fuel efficient DOHC platform, it doesn't compromise on anything.

SHOW NO MERCY

The Safari Storme carves out its own path, refusing to show mercy to any terrain. Be it gravel, mud, water, or snow, nothing stands in its path, as its electronic 'shift-on-fly' feature engages 4WD while on the move. An incredibly high ground clearance of 200mm and limited slip differential ensure that no roadblock messes with the cruising Storme.

FALL PREY TO ITS LOOKS

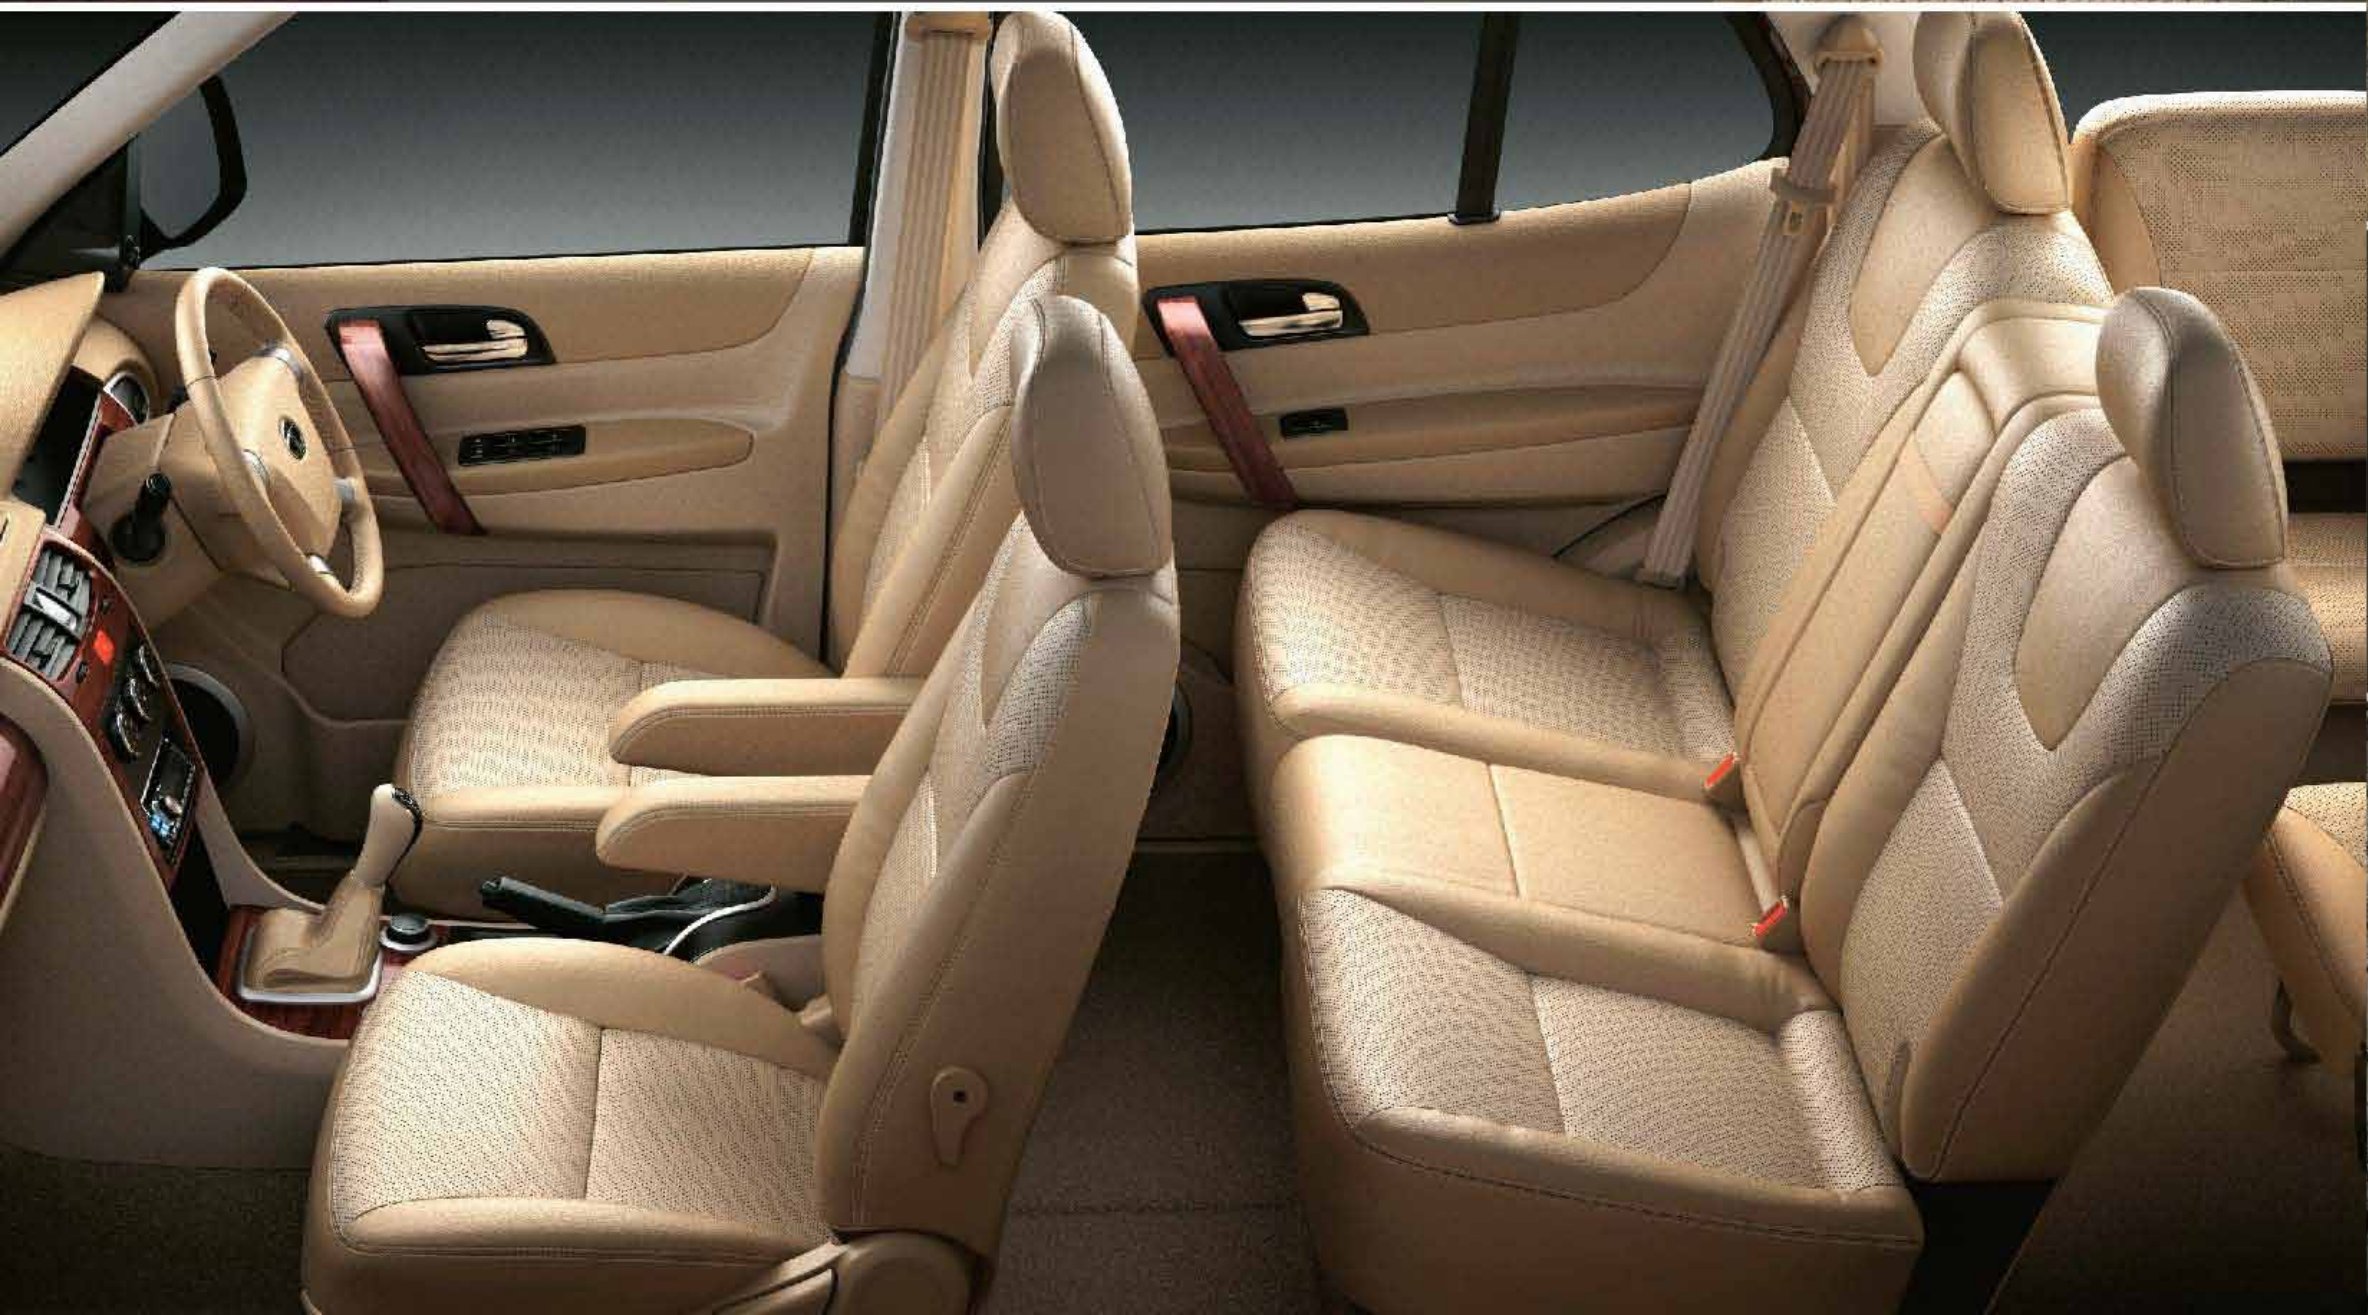

Endowed with the same ruggedness as its ancestors, the beast has now acquired a more refined stance with its all new front grille. The striking roof rails and the dual elliptical exhaust system further accentuate its much admired aggressive sporty look. Prominent twin spoke alloy wheels, sporty aerodynamic spoilers, and the premium clear glass projector headlamps equip it to effortlessly floor its prey.

MAJESTIC REFINEMENTS

Inside a Safari Storme, it's a majestic lifestyle. The eclectic mix of beige leather, wood and chrome creates a unique visual essence. Draped in leather, the steering wheel oozes raw masculinity, while the chrome-tipped gear only adds to the Storme's persona. The wood-accentuated dashboard and stylised door trims, all add to the beast's maturity and uber-sophistication.

EYE OF THE STORM

Fortified with a rigid ladder frame construction, the beast has got more muscle than meets the eye. Ventilated disc brakes on all four wheels and an Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) ensure precise braking. A crumple zone and dual SRS airbags are equipped to protect the Safari Storme's occupants in the event of a collision. In case of a mishap, the inertia switch automatically cuts off the fuel supply and unlocks all the doors while switching the hazard light on.

TURN UP THE THRILL

An advanced music system can now be easily accessed from the Safari Storme's intuitively designed in-car entertainment console. Bluetooth and aux-in interfaces make sure that you stay connected, always. The dual AC with integrated roof-mounted ducts make the chase all the more thrilling. The centrally-mounted analog clock and the digital odometer keep you rooted while the electrical parking assist gives you the extra eyes that you need.
